Breakout Additional Information

FUNDAMENTALS OF FIRE INVESTIGATION

This 40-hour tested course is designed to provide the new fire investigator with the prerequisite knowledge necessary to properly determine origin and cause of a fire and to refresh the experienced fire investigator with his/her current knowledge base as it relates to the scientific investigation of a fire scene. This course provides the basis for the IAAI Fire Investigation Technician designation. Attendees will be required to attend this entire course if they select this option.

Prerequisites:

CFITrainer.Net® Modules:

The Scientific Method for Fire and Explosion Investigation

Understanding Fire Through the Candle Experiments

Fire Investigator Scene Safety

Pre-Requisites are required as supporting knowledge for the class and the examination. Materials within the class and examination will reference all Pre-Requisites.

****Students are encouraged to bring a laptop computer with them to class.**

To pre-register for this course, please be sure to select the "Fundamentals of Fire Investigation" box on the conference registration page. If this is not selected, you will only be registered for the general session courses.
